### CAREER OPPORTUNITIES:

- Nurse Manager
- Nurse Leader
- Public Health
- Case Management
- Nurse Educator
- Quality Improvement

### IT'S A FACT:

Nearly 70% of Washington State students receive financial aid.

Washington State College of Ohio offers support courses that contribute to the BSN degree.

## Registered Nurse (RN) to Bachelor of Science in Nursing (BSN)

### THE PROGRAM:

The RN to BSN program is designed to enhance the education and professional growth of registered nurses with a diploma or an associate degree in nursing (ADN) as they earn their Bachelor of Science in Nursing (BSN). In combination with support courses, the curriculum will focus on nursing leadership, community health, nursing research, collaborative healthcare, and healthcare policy. Baccalaureate-prepared nurses are linked to improved patient outcomes and are positioned for career advancement. Upon program completion, graduates may choose to continue their education to graduate-level nursing degrees such as a Master of Science in Nursing (MSN) or a Doctor of Nursing Practice (DNP).

### CAREER SKILLS:

Graduates of the RN to BSN program at Washington State College of Ohio are prepared to meet the healthcare needs of individuals throughout their lifespans. In addition to providing and coordinating nursing care in hospitals, clinics, and physician's offices, nurses with a BSN degree are prepared for positions in nursing leadership, case management, public health, and quality improvement. Graduates will demonstrate preparation to contribute to the development of nursing practice by offering evidence-based solutions to clinical practice problems in a wide variety of healthcare settings.

### ADMISSION:

Admission to the RN to BSN program is awarded on a selective basis, with preference given to the most qualified candidates. Students must complete all requirements listed in the admissions packet and submit them prior to the deadline. General admission to the college does not grant admission into the program, but general admission into the college is required for program admission.

### FOR ENTRANCE, APPLICANTS MUST POSSESS:

- A nursing diploma or associate degree in nursing from an agency recognized by either the Council for Higher Education (CHEA) or the U.S. Department of Education.
- A minimum cumulative grade point average (CGPA) of 2.5 on a 4.0 scale.
- A current, active, unrestricted multi-state license as a Registered Nurse (RN) *or* an unrestricted single-state license in Ohio or West Virginia.
- Transfer of military credit will be accepted according to guidelines in the WSCO Student Handbook.
